## FOREWORD

The Pennsylvania Liquor Control Board presents herewith Price List No. 8. We have extended considerably our line of merchandise in accordance with the public demand. Conversely, many items previously listed have been excluded from the list because of lack of popular demand. It is, of course, impractical to carry every known line of good liquor, but we feel confident that the list given herein will, to a great degree, meet the demands of the public.

A study of the price list will disclose the fact that many of the popular whiskeys have been substantially reduced in price along with gins and domestic wines. There has been a slight increase in the price of some imported wines. The Board will continue to reduce prices as rapidly as market conditions permit with the object always in mind of providing Pennsylvanians with good liquors at the lowest prices possible consistent with good business.

Complete lines of listed merchandise will be carried in our larger stores. In the medium and smaller stores a serious attempt will be made to carry all merchandise receiving local public demand. Where a listed brand is not regularly carried in stock by a store it can be readily secured, upon request to the store personnel, who will obtain the desired item at the nearest large store or warehouse.

The Board appreciates the public approval and acceptance of its operations thus far. Through the combined efforts of the Board and the people of Pennsylvania the State Stores have been able to show a profit to date of upwards of \$7,500,000, besides the collection, through the State Stores operations, of over \$3,000,000, in State Floor Tax. In addition to the operating cost of the stores, the entire cost of Licensing and Enforcement has been deducted in arriving at the net profit figures.

In March, 1933, the Liquor Control Board had an inventory of \$22,400,000, and owed to vendors \$22,000,000, or a ratio of current assets to current liabilities of slightly better than one to one. On March 30, 1935, the Board's inventory position had improved to the extent of approximately \$11,500,000., its total inventory then being \$10,800,000. At the same time its Accounts Payable have been reduced from \$22,000,000. to \$9,800,000. During the same period of time its cash position, re-

serves for various contingencies and other credits have brought the total current assets to \$13,487,893.35 against its present total liabilities of \$9,881,919.61, or a ratio of current assets to current liabilities of approximately one and one-half to one. This has all been accomplished by your cooperation and in spite of continued reduction in prices in practically all lines of merchandise dispensed through the State Stores System.

To date there has been appropriated \$6,500,000 out of the State Stores profits for Work Relief and Blind Pensions. Of this amount the Pennsylvania Liquor Control Board has paid \$5,600,000. to Relief and \$898,000. to the Blind Pension Fund, or a total of \$6,498,000.

### EXPLANATORY

A numeral in parenthesis, as (1), indicates that the article so designated is available only in the district so marked on map on page 4.

An asterisk (\*) before the price of an article indicates the item is regularly stocked in King stores. These articles will be obtained for you upon request by any State Store manager.

### RETAIL CASE PRICE

The members of the staff of any State Store will furnish upon request the case price of any article shown in this list. For your convenience, these prices are also posted in every State Store.
